Resolving Legal Disputes

The selected arbitration boards intervene and resolve conflicts and legal problems through the arbitration method to encourage the beneficiaries not to review informal bodies in light of the irregularity of judicial work at work locations.

78 conflicts were resolved in the project sites, the number of beneficiaries of this activity reached 168, the displaced constituted 36.9 % of the total beneficiaries, which indicates the higher rate of conflicts among the residents of the local community under the current circumstances.

Financial disputes (commercial partnerships, inheritance distribution...) constituted the largest percentage of the disputes that were resolved, 47.4 % of the total disputes.

Training Female Lawyers

The process of development and empowerment of women lawyers was trained and supervised by a specialized legal expert in the city of Azaz.

The training axes focused on the types of courts and their specializations, the prosecution before the civil judiciary, and the conditions for filing a civil case the prosecution before the judiciary. After that, the legal expert spoke about the Syrian Personal Status Law with a focus on laws that preserve women's rights.

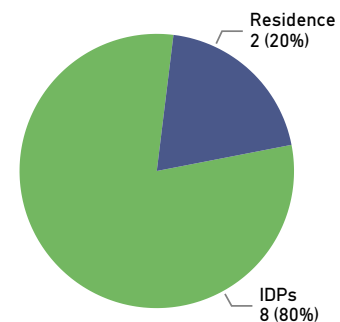

The team of female lawyers was also trained to defend and delegate women's rights in civil status cases.
